

Feature Building

MODEL	QUICKSTRUCTURES ARCH SERIES
SPECS	VARYING WIDTHS AND LENGTHS
USE	BOAT COVERS

Boat Covers

Over ninety of these Arch™ Series structures were purchased by a high profile marina condominium operation. The shelters are varying widths and range in length up to 65'. They endure winter conditions consisting of annual average snow fall of 50 inches and winds of up to 100 mph.

These boat owners are now enjoying the benefits of fabric covers including cooler shade protection, natural light, and a clean, bright appearance.
