

Feature Building

MODEL	QUICKSTRUCTURES ARCH SERIES
SPECS	20' W X 24' W ARCHES AT 6' ON CENTER
USE	STORAGE

Storage

This 20' x 24' Arch™ building is located at Dual Designs Landscaping and Garden Center in West Monroe, NY. This building has been mounted on concrete blocks with arch spacing at 6' on center.

This particular project shows how one building can be used for a variety of applications. During the winter the building is used for personal storage, and in the spring, the boats are removed and the building is used to keep topsoil covered and dry. The open end allows for easy access in and out of the building with equipment.
