

Feature Building

MODEL	QUICKSTRUCTURES ARCH SERIES
SPECS	30' W X 72' L ARCHES AT 4' ON CENTER
USE	CATTLE BARN

Cattle Barn

This cattle barn, a 30' x 72' Arch Series structure with arches at 4' on center, is mounted on a 5' concrete wall. The building has one wood end while the other end is attached to a conventional structure used for storing supplies. The cover is green and has a 12' wide skylight that runs the length of the building. The skylight, made of white Duraweave® fabric, creates a bright interior for the animals during the day.
